March 12, 2019

5:00pm, Room #937A, 9th Floor, Boston City Hall

Project: **Boston University Data Sciences Center**

Present: Mikyoung Kim, Anne-Marie Lubenau, David Manfredi, William Rawn

DISCUSSION: In response to feedback from the previous Design Committee meeting on January 22, the project team presented diagrammed studies of alternatives to the proposed building massing which is designed to resemble a stack of books. Commissioners continued to express concern about the visual weight of the building, but felt satisfied with the landscape design strategy. The project team used a digital presentation and physical model to outline their approach and project updates and answered questions from the BCDC Commissioners present. The project will return to Design Committee.
